

General comments about style

-
-
-
-
- I replaced ‘Sec.’ by ‘Section’ to refer to sections in the present work. Moreover, I changed ‘Sec.’ to ‘section’ to refer to a section in one of the references.
- All acronyms are introduced the first time they appear in the text (MW, M31, GC, YMC, ISM, SN, AGB, DM). The subset thereof that appears in the abstract is also introduced the first time it appears.
